NEWS RELEASE

CUSTOM SOFTWARE SOLUTIONS PRODUCTS NOW INTEGRATED WITH AVIVA'S GATEWAY BROKER PORTAL

May 1, 2007 - Custom Software Solutions Inc. (CSSI) is pleased to announce that Aviva Insurance brokers will soon have the ability to instantly transfer data from CSSI's The Brokers Workstation rating tool Intelliquote to Aviva's broker portal Gateway.

Aviva has worked with CSSI to provide for optimal integration of Gateway both into CSSI's complete office solution, The Broker's Workstation (TBW), and also into its standalone rating and underwriting tool, Intelliquote (IQ). This integration allows the broker to maintain all the benefits of working within TBW and IQ as well as the ability to quote and issue new business for Personal Property and Automobile with the point of sale functionality of Gateway, without double entry.

CSSI continues to deliver to brokers optimal integration tools such as Gateway or its own industry leading I-Biz and Web Connect products. "We will deliver as many integration tools to our brokers as possible to streamline their workflow and eliminate duplicate processes," said Scott Andrew, CEO of Custom Software Solutions. "Despite the onset of individual Insurance Company processes we have not lost site of creating a SEMCI environment for our Brokers. Aviva's willingness to integrate Gateway with our products allows us to continue that vision."
