

Custom Software Solutions Products compliant with Ontario Auto Reform

July 12, 2010

Custom Software Solutions Inc. is pleased to announce that their **The Broker's Workstation** (Broker Management System) and **IntelliQuote** (rating and underwriting) products are **fully compliant** with the upcoming Ontario Auto Reform changes taking place for September 1, 2010.

Work has been completed on the new mandated Application. It is compliant with the new regulations and is fully integrated using CSIO standards. Our company rate manuals in IntelliQuote have been updated to comply with all the new rating and underwriting rules effective September 1, 2010 as provided by our Insurance Company partners.

Custom Software's **The Broker's Workstation** (TBW) is an expandable, fully integrated suite of automation tools, offering real-time workflow designed to support the operations of property and casualty insurance brokers and agents. TBW integrates a rating and customer relationship management component called **IntelliQuote** (also available stand alone), a back-office broker financial management system, and a commercial-policy sale, service, and marketing tool. ***It is the only fully integrated Broker Management System on the market.***
