NEWS RELEASE

CUSTOM SOFTWARE SOLUTIONS ANNOUNCE EDOCS FUNCTIONALITY WITH AVIVA

June 20, 2013, Toronto, ON and Virden, MB – Custom Software Solutions (CSSI) is pleased to announce the addition of Electronic Document Transfer (eDocs) functionality with Aviva Canada Inc. eDocs is the ability to transmit documents seamlessly and electronically via CSIONet, using the Centre for Study of Insurance Operations (CSIO) XML standards.

CSSI's The Broker's Workstation (TBW) and Intelliquote (IQ) will be electronically receiving a PDF of the broker copy of the policy declarations for all transactions for Personal Auto and Personal Property for Aviva.

Aviva, CSSI, and a number of Brokers completed the pilot stage of the eDocs Project in May. With the pilot complete, eDocs will be available to the remaining CSSI Aviva Brokers starting mid-June.

"We are pleased to be adding Aviva to our list of insurance companies offering the eDocs functionality. Receiving the Dec page with the download is a real time and cost saver as it eliminates both creating and handling the paper," said Scott Andrew, President and CEO of CSSI. "We encourage other insurance companies to contact us to discuss this functionality."

Greg Somerville, Executive Vice President of Broker Distribution at Aviva, commented, "This represents an important step in our ongoing efforts to improve our brokers' ease of doing business. Being able to send electronic policy documents from Aviva directly to the broker's client file seamlessly is a big win for our brokers. We're very pleased to be part of the industry's eDocs solution."
