

17 March 2016

To: Users of The Broker's Workstation and/or The Underwriter's Workstation

Dear Valued Client:

Re: The Broker's Workstation and The Underwriter's Workstation – Important Releases and Changes

Custom Software Solutions Inc. (CSSI) is pleased to announce the release of the following enhancement to **The Broker's Workstation (TBW)** and **The Underwriter's Workstation (TUW)**:

Contents

1. [Enhanced Water Damage Endorsement for Intact/Novex \(Maritimes\)](#) – Effective February 8, 2016 for new business and renewals, an Enhanced Water Damage endorsement is available in TBW/TUW for homeowners and seasonal broad policies with Intact/Novex.

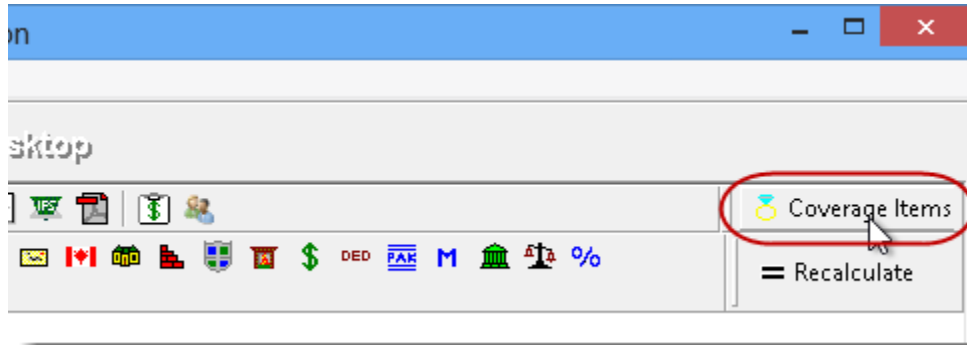

1. Enhanced Water Damage Endorsement for Intact/Novex (Maritimes)

Effective February 8, 2016 for new business and renewals, an Overland Water Enhancement is available in TBW/TUW for brokers in the Maritimes doing business with Intact/Novex. This enhancement, which is being introduced as the Enhanced Water Damage endorsement, is available for homeowners and seasonal broad policies with Intact/Novex in PEI and Nova Scotia, and with Intact in New Brunswick.

Please note, when the Enhanced Water Damage endorsement is added to a new or existing IntelliQuote, Sewer Backup and Water and Sewer Lines endorsements must also be added to the IQ. Adding the Enhanced Water Damage, Sewer Backup, and Water and Sewer Lines endorsements to the IntelliQuote encompasses the Enhanced Water Damage Endorsement / Overland Water Enhancement.

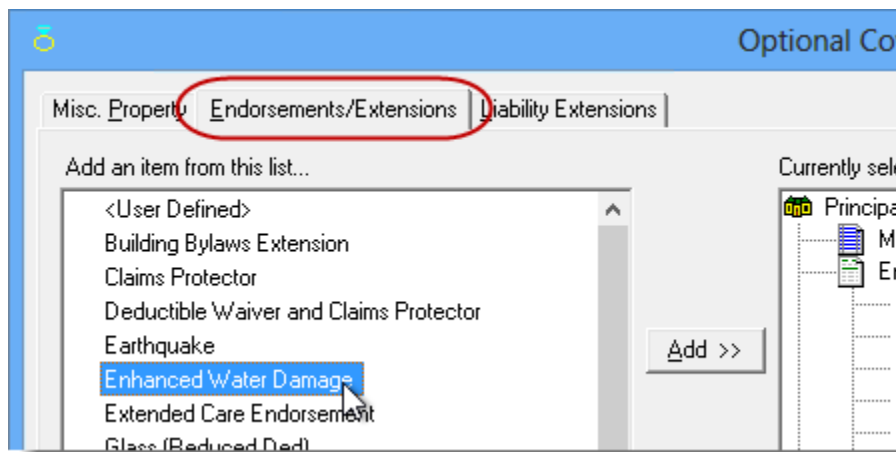

To add the Enhanced Water Damage endorsement to a new or existing IntelliQuote, click the **Coverage Items** button on the IQ toolbar (see Figure 1.1).

(Figure 1.1)

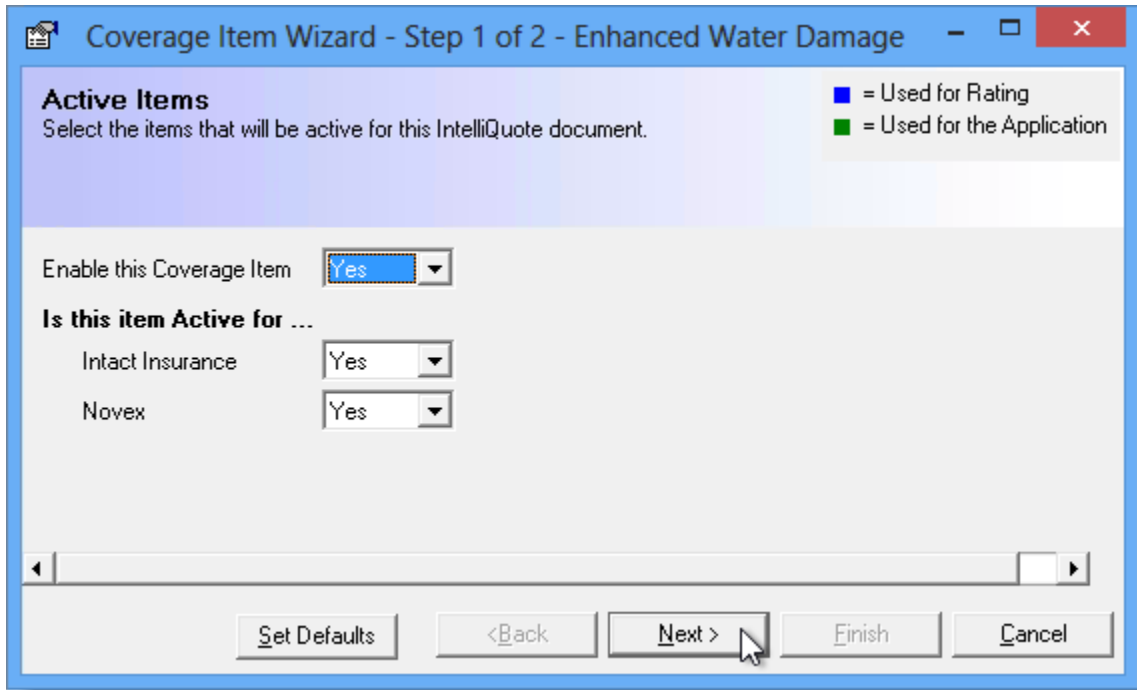

Then, in the **Optional Coverages** dialog, double-click **Enhanced Water Damage** on the **Endorsements/Extensions** tab (see Figure 1.2).

(Figure 1.2)

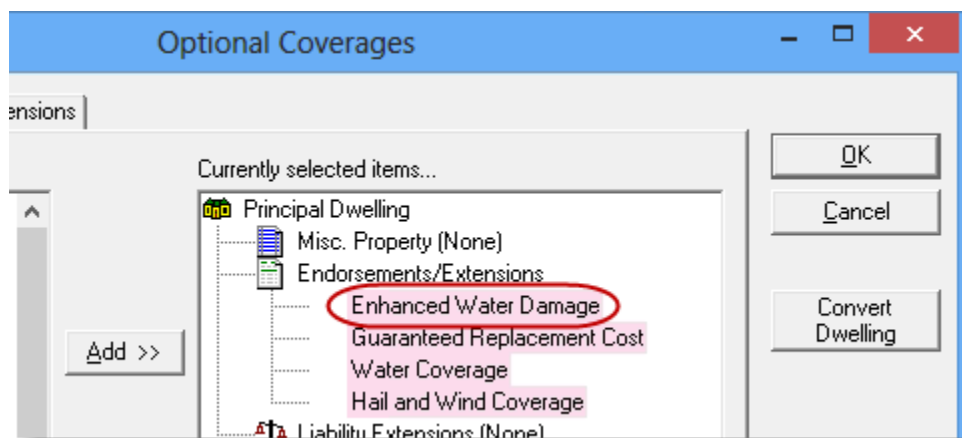

Enter applicable details with the help of the **Coverage Item Wizard** that displays (see Figure 1.3), using the **Next** button to move from one screen to the following, and then click **Finish**.

(Figure 1.3)

The Enhanced Water Damage endorsement will display in the **Currently selected items** list in the **Optional Coverages** dialog (see Figure 1.4).

(Figure 1.4)

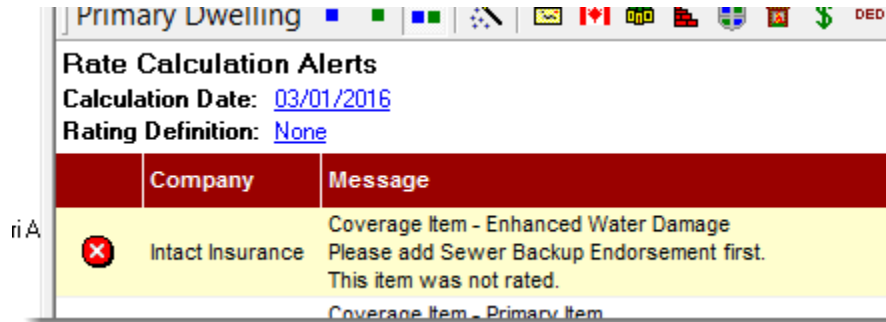

Repeat these steps to add the Sewer Backup endorsement to the IQ. The Water and Sewer Lines endorsement will be added automatically.

- Please note that deductibles cannot be less than the risk deductible.
- Sewer backup rules and limits apply to the overland water zones.
- These endorsements will also display in the **Currently selected items** area once they have been added in Optional Coverages.

Complete the IntelliQuote in the usual manner, and remember to click the **Recalculate** button on the IQ toolbar to update the IQ with any changes.

If the Enhanced Water Damage endorsement has been added to the IQ, but the Sewer Backup endorsement has not, an **Alert** will display to remind you to add this item (see Figure 1.5).

(Figure 1.5)

If the risk falls within a zone not applicable for the Enhanced Water Damage Endorsement/Overland Water Coverage, Sewer Backup and Water and Sewer Lines endorsements are available.
